December 8 - 9, 2025 / Four Seasons Hotel Kuwait

The Kuwait Risk Management Summit 2025 is designed to equip leaders in enterprise risk, audit, and compliance with the latest insights and actionable strategies to tackle the evolving risk landscape. This event will unite industry experts, thought leaders, and professionals to explore cutting-edge advancements in technology, strategy, and leadership.

Key discussions will include enhancing Third-Party Risk Management oversight through advanced technology and accountability measures, fostering a strong Risk Culture and Leadership to integrate Enterprise Risk Management (ERM) into corporate strategy, and utilizing Governance, Risk, and Compliance (GRC) tools to improve risk and data governance. The summit will also focus on enhancing Compliance Program effectiveness through data-driven approaches, bolstering Cybersecurity and Digital Resilience to address AI-driven threats, and preparing for the emerging risk landscape by incorporating new challenges into comprehensive risk frameworks.

This summit offers a valuable opportunity to gain practical insights, exchange experiences with peers, and discover innovative solutions to navigate today's most pressing challenges. Join us to stay ahead in enterprise risk management and drive resilience and success within your organization.

Summit Themes:

Third-Party Risk Management:

Organizations are under increasing pressure to enhance oversight of third-party risks. This track explores strategies for leveraging advanced technology and fostering accountability to strengthen due diligence and monitoring processes.

Risk Culture and Leadership:

A strong risk culture starts with leadership. Gain insights into fostering risk awareness across all levels, integrating ERM into corporate strategy, and striking the right balance between innovation and risk management.

Governance, Risk, and Compliance (GRC) Tools:

With growing demands for oversight, leaders are turning to GRC tools for improved risk and data governance. Learn how to identify critical capabilities, differentiate tools, and implement them effectively across your organization.

Compliance Program Effectiveness:

Regulatory changes highlight the need for evaluating compliance program impacts. This track focuses on adopting data-driven approaches to measure effectiveness, improve outcomes, and build a strong compliance culture.

Cybersecurity and Digital Resilience:

As AI-driven threats evolve, cybersecurity demands a proactive approach. Explore strategies for robust risk management, securing hybrid work environments, and implementing Zero Trust Architecture to protect data and systems.

Emerging Risk Landscape:

In a volatile environment, identifying and managing emerging risks is essential. Learn from peer-identified challenges and discover practical strategies to integrate these risks into your broader risk management framework.
